

EVADO ON-DEMAND

The COVID Pandemic has dramatically disrupted the delivery of clinical trials. Sponsors now require instant access to clinical software so that trials can be set up without any delays. Evado's Clinical enterprise clinical trial software has been re-imagined as Evado OnDemand to meet this need.

Evado OnDemand is competitively priced subscription service for trials of all sizes to provide sponsors with a fast turnaround from setup to recruitment.

Evado OnDemand provides all of the features of an enterprise solution delivered as a simple on-demand service.

Evado OnDemand has three tiers of service purchased on a per trial basis. Informed Consent can be run as a stand-alone trial or integrated with EDC.

- **Lite:** is a simple easy to user service for small trials:
 - a maximum of 200 subjects
 - electronic informed consent
 - eSignature
 - eSource
 - a single schedule
 - remote trial participation

Evado Clinical OnDemand

- remote monitoring
- simple scheduling and data collection
- a web base eCOA functionality.
- **Standard:** is a service for medium sized trials or registries. It has all of Evado OnDemand Lite functionality plus:
 - Maximum of 500 subjects
 - Multi-arm trials
 - Randomisation
 - A web and device eCOA functionality.

Enhanced: is a service for large sized trials or registries. It has all of Evado OnDemand Standard functionality for trials or registries with greater than 500 subjects.

Evado OnDemand provides an enterprise service for customers who are running large numbers of trials or registries. The enterprise service also supports web service integration with external systems or services.
